PROFILE SUMMARY

B.Tech IT student with hands-on full-stack development experience across production and hackathon environments. Completed a paid Information & Digital internship at Bechtel, resolving state management and rendering issues on a live engineering application. Built and deployed a blockchain-integrated civic reporting platform for Smart India Hackathon 2025 and a disaster-response system with real-time risk prediction.

EXPERIENCE

Information & Digital Intern | Bechtel Corporation

May 18 – Jul 10, 2026

- Contributed to CaseStudy, a production engineering app (React/TypeScript, .NET 8, SQL Server), fixing state management, navigation, and rendering issues.
- Refactored navigation to use React Router state instead of re-fetching on route change, eliminating redundant API calls.
- Fixed PDF export failures caused by improper blob URL handling.
- Built a responsive card grid using a useCallback ref and ResizeObserver pattern.
- Authored a security and code-quality assessment across authentication, configuration, and API layers.
- Introduced Jest-based unit testing for previously untested frontend modules.
- Leveraged AI coding agents (GitHub Copilot, Claude) to accelerate development and testing workflows.
- Worked in two-week iterative cycles, presenting progress to supervisor for feedback and review.

PROJECTS

Disaster Management & Preparedness System 2026

- Developed a comprehensive system for disaster preparedness and real-time response management.
- Implemented alert systems, resource tracking, and inter-agency coordination features.
- Integrated an XGBoost-based risk prediction model with live weather data via the OpenWeatherMap API.

Civic Issue Reporting Platform 2025

- Designed a platform enabling citizens to report and track local civic issues digitally.
- Integrated AI-based image classification to auto-categorize reported issues.
- Used Blockchain technology for tamper-proof, transparent data storage.
- Developed for the Jharkhand Government as part of SIH25.

EDUCATION

B.Tech Information Technology – Sri Krishna College of Engineering and Technology

2023 – 2027(pursuing) • CGPA: 7.80 / 10

Higher Secondary Education – Prakriya International School

2021 – 2023 • Percentage: 81.3%

TECHNICAL SKILLS

Languages: Java, C++, JavaScript, TypeScript, Python

Web: React.js, Next.js, Node.js, HTML5/CSS3, Tailwind CSS

Backend & Database: .NET 8, REST APIs, MySQL, SQL Server, Supabase

Cloud & Tools: AWS, Vercel, Git/GitHub

CERTIFICATIONS

- Infosys Springboard – Java Programming Fundamentals, Data Structures & Algorithms, Spring Data JPA with Boot +14 more
- Cisco Networking Academy – Introduction to Cybersecurity, Python Essentials 1 & 2
- Spoken Tutorial, IIT Bombay – Advanced C++, Python for Machine Learning

Coding Profile: [LeetCode](#) – 315+ problems solved
