

HARSHAVARDHAN K G

B.Tech Information Technology | Sri Krishna College of Engineering and Technology
+91 88078 11044 • harshavardhan041104@gmail.com • Coimbatore, India

PROFILE SUMMARY

B.Tech IT student at SKCET with hands-on experience in full-stack web development, AI tools, and cross-platform application development. Built and deployed production systems including a blockchain-integrated civic platform for Smart India Hackathon 2025 and a functional online voting system. Completed a paid Information & Digital internship at Bechtel, contributing to a production engineering application.

EXPERIENCE

Information & Digital Intern | Bechtel

May 18 – Jul 10, 2026

- Contributed to **CaseStudy**, a production engineering application (React/TypeScript, .NET 8 Clean Architecture, SQL Server), fixing state management, navigation, and rendering issues.
- Optimized navigation using React Router state to eliminate redundant API calls and fixed PDF export failures caused by improper blob URL handling.
- Built a responsive card grid layout using a **useCallback** ref and **ResizeObserver** pattern.
- Authored a security and code-quality assessment covering authentication, configuration, and API layers.
- Introduced Jest-based unit testing for previously untested frontend modules.

PROJECTS

Disaster Management & Preparedness System | Pre-Final Year Project 2025 – 2026

- Developed a comprehensive system for disaster preparedness and real-time response management.
- Implemented alert systems, resource tracking, and inter-agency coordination features.

Civic Issue Reporting Platform | Smart India Hackathon 2025 2025

- Designed a platform enabling citizens to report and track local civic issues digitally.
- Integrated AI-based image classification to auto-categorize reported issues.
- Used Blockchain technology for tamper-proof, transparent data storage.
- Developed for the Jharkhand Government as part of SIH25.

Online Voting Platform | Personal Project 2024

- Built a secure online voting system for conducting elections.
- Developed frontend using React.js with database-backed vote storage and real-time result processing.
- Successfully deployed and used for club election processes.

EDUCATION

B.Tech Information Technology – Sri Krishna College of Engineering and Technology

2023 – Present • CGPA: 7.72

TECHNICAL SKILLS

Programming Languages: Java, C++, JavaScript

Web Development: HTML5, CSS3, React.js

Database: MySQL

Cloud & Tools: AWS, AI Automation Tools

App Development: Web Applications, Cross-platform Applications

CERTIFICATIONS

- Infosys Springboard – Technology & Programming Courses
- AI Tools Certification – Be10X
- AWS Cloud Fundamentals

LANGUAGES

- English – Fluent
- Tamil – Fluent
- Hindi – Basic conversational understanding
- Japanese – Currently learning (Duolingo)
